

ChronoTrack Tri Tag Wear

Tri Tags are disposable, with your Bib Number printed on each end

Vinyl Bands - Thread the band, with the post pointing up, through the strap slots on the Tri Tag, sliding it over the wings on the vinyl band

Neoprene Bands - Thread the velcro strap through the strap slots on the Tri Tag, secure it to the neoprene as seen below

Fasten either band around the thinnest part of the ankle, snugly, but not too tight, with the Logo facing out. Snap closed the vinyl band, by gently squeezing the snap between your thumb and finger until closed, then trim off the excess vinyl band or tuck it back in the Tri Tag
